

Sony Financial Group Environmental Policy

(Basic Principle)

Sony Financial Group will provide value to our stakeholders through our business activities, and as a member of Sony Group, we will pay special attention to environmental conservation in our business activities and in all phases of the life cycle of our products and services in keeping with the “Sony Group Environmental Vision” that aims to realize a sustainable society.

(Policy)

1. We will promote recycling of resources and saving of energy that are needed to operate our business. All our employees are highly conscious of the environment and will endeavor to reduce the impact on environment.
2. We will comply with laws and regulations on environmental conservation that are applied to our business activities and will also fulfill other requirements.
3. We will set environmental goal and objectives to promote activities on environmental conservation and will continuously improve them.
4. We will get our environmental conservation activities across to all employees and make them environmentally conscious in various aspects of their professional and daily lives.
5. We will announce our environmental policy and initiatives internally and externally through our public relations activities.

A handwritten signature in black ink, reading "Yoshihide Endo". The signature is written in a cursive, flowing style.
