

### Sony Financial Holdings Inc. **Annual Report**

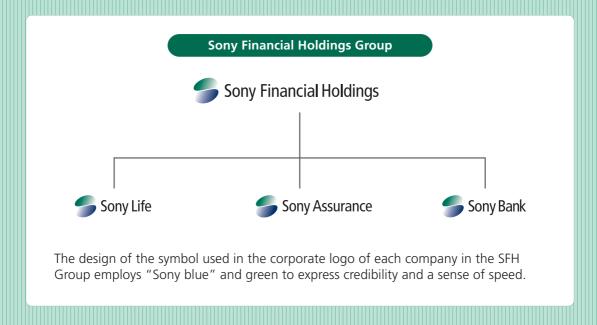

2005

For the year ended March 31, 2005

The Sony Financial Holdings Group (SFH Group) is a financial services group comprising the financial holding company Sony Financial Holdings Inc. (SFH), which is wholly owned by Sony Corporation, and three core subsidiaries—Sony Life Insurance Co., Ltd. (Sony Life), Sony Assurance Inc. (Sony Assurance) and Sony Bank Inc. (Sony Bank). By integrating the diverse functions that are inherent to such financial services as savings, investment, borrowing and protection, the SFH Group aims to earn high levels of trust from its customers by providing high-value-added products and quality services that meet their individual economic needs.

## We create new financial services by generating ideas from the fundamentals.

On April 1, 2004, the Sony Financial Holdings Group was founded, becoming Japan's first financial group to offer both insurance and banking services under one umbrella.

In April 2004, Sony Financial Holdings was founded as Japan's first financial holding company providing both insurance and banking services under one umbrella. While each subsidiary offers high-value-added products and quality services in its own right, as a group we transcend the boundaries of life insurance, non-life insurance and banking, integrate the diverse functions that are inherent to such financial services as savings, investment, borrowing and protection, and aim to become one of the most trusted financial services groups.

#### ■ Background to Sony Financial Holdings' Establishment

April 2004 marked the founding of Sony Financial Holdings, a financial holding company that has Sony Life, Sony Assurance and Sony Bank under its umbrella. SFH is wholly owned by Sony Corporation and is Japan's first company to hold both insurance and banking businesses under one umbrella.

In Japan, the financial business environment is rapidly changing, due to such factors as a declining birthrate, an aging population and advances in information technology, and those factors are prompting diversification in customers' lifestyles and needs for financial services and products. We think it is necessary to respond quickly and appropriately to these

changes. Also, unlike other businesses in the Sony Group, growth in financial services businesses such as life insurance, non-life insurance and banking brings a concurrent increase in

#### **Leading Up to Establishment**

one umbrella.

• March 30, 2004 Sony Corporation received approval from the Financial Services Agency in Japan to establish a financial holding company as an insurance holding company under the Insurance Business Law of Japan and as a bank holding company under the Banking Law of Japan. Sony Financial Holdings Inc. was established and began operations as Japan's first financial holding

company to hold both insurance

and banking businesses under

• April 1, 2004

#### Corporate Vision and Philosophy of the SFH Group

#### **Corporate Vision-**

The SFH Group aims to integrate the diverse functions that are inherent to such financial services as savings, investment, borrowing and protection; offer high-value-added products and quality services that meet individual customers' economic needs; and become one of the most trusted financial services groups.

#### Corporate Philosophy

#### **Customer-Oriented**

We consider each customer's input carefully and provide services to their satisfaction, helping them lead lives that are abundant and trouble-free.

#### Contributing to Society

We understand that financial services businesses have a certain public nature. As we pursue our vision, we contribute to society by maintaining high ethical standards and levels of responsibility. We also fulfill our other obligations as a member of society and good corporate citizen.

#### **Pursuing Originality**

We always generate ideas from the fundamentals, and pursue originality and innovation while remaining unfettered by convention.

#### Corporate Culture with a Spirit of Freedom and Open-Mindedness

Our ideal for the financial services business recognizes the importance of each employee's contribution. Our corporate culture features a spirit of freedom and open-mindedness and takes full advantage of individuality and ability.

#### Financial Highlights (Consolidated)

Year ended March 31

(Millions of yen, unless otherwise indicated)

	2005
Ordinary revenues	653,259
Ordinary profit	12,269
Net income	6,375
Net income per share (yen)	3,069.93
Common stock	5,500
Number of shares outstanding (shares)	2,100,000
Net assets	182,817
Total assets	3,282,269
Net assets per share (yen)	87,056.14
Consolidated capital adequacy ratio (%)	12.17

Note: SFH's consolidated capital adequacy ratio is subject to the capital adequacy guidelines established by the Financial Services Agency in Japan and which closely follow the risk-adjusted approach proposed by the Bank for International Settlements (BIS). The insurance subsidiaries are excluded from the calculation of SFH's consolidated capital adequacy ratio in accordance with the above guidelines.

the volume of assets deposited by customers. For these reasons, SFH was established to concentrate the specialized knowledge and operational resources needed to develop and offer high-value-added products and quality services. With SFH at its hub, the SFH Group transcends the boundaries of life insurance, non-life insurance and banking, integrates the diverse functions that are inherent to such financial services as savings, investment, borrowing and protection, and aims to become one of the most trusted financial services groups.

While maintaining the management independence of each subsidiary, the organizational structure of SFH—whose board includes the president of each of its three subsidiaries—is designed to plan and implement integrated and comprehensive groupwide financial business strategies.

#### **Corporate Strategy that Enhances Customer Trust**

When formulating groupwide strategies, SFH places its highest priority on protecting customer interests and ensuring the management soundness of each subsidiary. We carefully monitor each subsidiary's management in a respectful manner and promote management

control activities from the viewpoint of adding new group management control functions and encouraging creativity.

#### SFH Group Consolidated Performance in Fiscal 2004

Although the Japanese business environment remained severe, with only a slight ongoing recovery in the domestic economy and continued low interest rates, each subsidiary in the SFH Group steadily expanded its operations in fiscal 2004, ended March 31, 2005.

To offer higher quality services to customers, Sony Life promoted new sales process management to support the sales activities of Sony Life's highly trained life insurance professionals, Lifeplanners, and the thorough implementation of needs-based sales solutions. As a result, despite a decline in the total insurance in force in the life insurance industry in Japan, Sony Life's total for individual life insurance and individual annuities in force increased 6% year on year, to ¥27,823.4 billion as of March 31, 2005.

Based on its new corporate slogan, "Feel the difference—a difference that will change insurance," Sony Assurance endeavored to provide products and services that customers recognize as clearly distinctive from other companies' offerings. In fiscal 2004, sales of Sony Assurance's mainstay automobile insurance and medical and cancer insurance policies grew steadily, and net premiums written increased 23% year on year, to ¥37.8 billion. Especially for automobile insurance, Sony Assurance ranked top for direct premiums written among direct-type non-insurance companies in Japan for the third consecutive fiscal year.

In fiscal 2004, Sony Bank developed its activities by focusing on the thorough enhancement of strategic products, furthering tie-ups with financial services companies within the Sony Group and preparing new revenue streams. In particular, Sony Bank extended its lineup of services involving such flagship products as foreign currency deposits and housing loans. As a result, as of March 31, 2005, the number of accounts at Sony Bank totaled 367 thousand, up 98 thousand during the year, and deposits continued to rise, to ¥546.7 billion. In June 2004, SFH took steps to enhance Sony Bank's financial condition by injecting ¥10.0 billion in equity, with the proceeds raised through an allotment of SFH shares to Sony Corporation.

We believe our subsidiaries' financial results during fiscal 2004 reflect customer confidence in the SFH Group. We will continue striving to reinforce our level of trust with customers and enhance corporate value through the ongoing and stable growth of the SFH Group.

#### □ Tie-ups within the SFH Group

Even before the inception of the SFH Group, Sony Life, Sony Assurance and Sony Bank had formed certain tie-ups and benefited from them. For instance, in May 2001 Sony Life started to sell Sony Assurance's automobile insurance products through its Lifeplanner sales channel, and in March 2002 Sony Life began underwriting group credit life insurance for housing loans extended by Sony Bank.

In fiscal 2004, the first full fiscal year for the SFH Group, SFH streamlined and enhanced the SFH Group's structure and reinforced tie-ups, mainly those involving subsidiaries' mutual

provision and delivery of products and services, to bring about greater group synergy. In June 2004, Sony Bank began selling Sony Life's individual annuity products, and in October 2004 Sony Bank began to offer Sony Assurance's fire insurance to customers taking out Sony Bank's housing loans. Furthermore, in December 2004 Sony Life's Lifeplanners started introducing Sony Bank's housing loans.

#### Future Growth of the SFH Group

SFH is preparing for its initial public offering with the goal of diversifying financing opportunities to promote the further growth of the SFH Group. On June 27, 2005, Kunitake Ando, a founding member of Sony Life who served as Director, President and Representative Corporate Executive Officer of Sony Corporation until June 22, 2005, will join our management team as Chairman and Representative Director of SFH. Under this new management team, we will continue to enhance the SFH Group's management fundamentals and expand its business. We thank all our stakeholders for your ongoing support and look forward to your cooperation in the years ahead.

(As of March 31, 2005)

By integrating the diverse functions that are inherent to such financial services as savings, investment, borrowing and protection, the SFH Group aims to earn high levels of trust from its customers by providing high-value-added products and quality services that meet their individual economic needs.

Shigeru Ishii President, Representative Director Sony Bank Inc.

Teruhisa Tokunaka President Representative Director Sony Financial Holdings Inc.

President, Representative Director Sony Life Insurance Co., Ltd.

Shinichi Yamamoto President Representative Director Sony Assurance Inc.

Three SFH Group subsidiaries—Sony Life, Sony Assurance and Sony Bank—offer financial services to customers, and each company is highly regarded for its consistent response to customer needs through new services that are unhindered by industry conventions. Sony Life provides consulting sales through its Lifeplanners and Partners, Sony Assurance conducts direct marketing by telephone and via the Internet, and Sony Bank is dedicated to offering Internet-based services.

While the three companies continually work to strengthen their own businesses, they also enhance group synergies by reinforcing mutual tie-ups in the areas of offering products and services, sharing and mutually cultivating sales channels and infrastructure, and planning and implementing brand strategies. The three companies also continue to offer attractive, high-value-added products and services that conventional financial institutions are not prepared to provide.

As the holding company of these three subsidiaries, SFH strives to build up intra-group services and integrate functions while maintaining each company's managerial independence. By putting these comprehensively integrated financial strategies into practice, we aim to enhance the corporate value of the SFH Group.

#### Sony Life Insurance Co., Ltd.

Through finely tuned consulting and after-sales follow-up, Sony Life provides protection to optimally match each customer's needs. Sony Life embraces a new style of providing life insurance.

Sony Life delivers life insurance products that are optimally tailored for each customer's life plan. This approach is based on Sony Life's basic mission, "to work for customers" economic protection and stability by offering reasonable life insurance products and high-quality services." Particularly nowadays, as personal values in lifestyles and family situations become more diverse, Sony Life believes careful consulting is an essential supporting element of people's varied lives. Taking each family's specific situation into consideration, Lifeplanners\* (sales employees) and Partners (independent agencies) work with customers to structure individual life plans that turn their dreams into reality. They then calculate the amount needed to provide lifelong protection, and tailor an optimal life insurance plan for each customer. After a sale, Lifeplanners and Partners continuously review protection details along with changes in a policyholder's lifestyle, and continue to offer lifelong security by fulfilling after-sales commitments, such as promptly delivering hospitalization benefits or insurance benefits in the event that a policyholder faces a problem. For Lifeplanners and Partners, one of the most important missions is to deliver insurance benefits to policyholders when the unexpected occurs, thereby fulfilling the original purpose of the insurance. To achieve this mission, Lifeplanners and Partners continuously provide after-sales service that responds promptly to changes not only in policyholders' family situations but also in the social and economic environment.

#### History

• 1979	August	Sony Prudential Life Insurance Co., Ltd. established as a joint venture between Sony
	3	Corporation and the Prudential Insurance Company of America (Prudential)
• 1981	February	Business license obtained from the Ministry of Finance in Japan
	April	Commenced operations and introduced Lifeplanner system
		Initial structure
		Head office: 52 employees, reporting to the Chairman
		Branches: Four offices (Shinjuku, Ueno, Omiya, Yokohama), 27 Lifeplanners Products: Five main products, including whole life insurance, and five riders
• 1987	luly	Agreement reached with Prudential to terminate joint venture contract
- 1507	September	
• 1989	October	Independent agency system established
• 1991	April	Corporate name changed to Sony Life Insurance Co., Ltd.
	August	Sony Life Insurance (Philippines) Corporation established

• 2002	March	Commenced underwriting of group credit life insurance for housing loans extended by Sony Bank
• 2004	April	Sony Corporation established Sony Financial Holdings Inc., and Sony Life became a 100% subsidiary of Sony Financial Holdings
	December	Commenced introduction of Sony Bank's housing loans through Lifeplanner marketing channel

<sup>\* &</sup>quot;Lifeplanner" is a registered trademark of Sony Life Insurance Co., Ltd.

#### ■ Products and Services that Prioritize Customer Security

Sony Life delivers tailor-made life insurance products that are optimized for each customer. To ensure security for its customers, Sony Life provides an extensive lineup of products and services that allows quality consulting and after-sales follow-up. Held in particularly high regard is its "quick claims service," which streamlines claims payment procedures, enabling policyholders to receive benefits either on the day or two working days after claims are made. To protect customers from potential economic burdens in the event of illness or injury, in fiscal 2004 Sony Life began offering policyholders optional riders to provide exemptions from future premium payments and to provide lifestyle security. These riders have proven popular.

#### **Reciprocal Studies**

Embracing a spirit of mutual assistance in their quest to serve customers, Sony Life's employees have taken the initiative by hosting independent training forums throughout the nation.

The Million Dollar Round Table (MDRT) is an international association of leading insurance and investment financial services professionals throughout the world. As of June 14, 2005, MDRT had 32,750 worldwide members, of whom 491 were Lifeplanners and Partners of Sony Life, making our membership one of the largest from Japan.

The Japan Association of Insurance and Financial Advisors (JAIFA) was established in 1962 to enhance the status of life insurance salespeople through the reciprocal education of its members. This association hosts a variety of initiatives as a forum for mutual training. Sony Life's Lifeplanners, sales office managers, branch managers and Partners participate in JAIFA, and JAIFA regional chapters have been set up in regional areas to spearhead various activities.

#### ■ Nurturing Financial Planners

To improve needs-based sales skills, many of Sony Life's Lifeplanners and Partners pursue independent study as financial planners, who are professionally qualified to meet the financial needs of customers. Sony Life is one of the life insurance industry leaders in terms of the number of qualified financial planners. As of June 1, 2005, Sony Life had a total of 2,300 qualified Affiliated Financial Planners licensed by the Japan Association for Financial Planners and 149 Certified Financial Planners holding the international qualification conferred by the Certified Financial Planner Board of Standards, Inc., of the United States. In addition, Sony Life employees qualified as a 1st Grade or 2nd Grade Certified skilled worker of Financial Planning—qualifications given by the Japanese government as a proficiency certification system to certify levels of expertise according to the Human Resources Development Promotion Law—reached 119 and 1,653, respectively.

#### On-the-Day Claims Service

Pays insurance benefits of up to ¥3 million

#### on the day of the claim

Benefits of less than ¥3 million are paid in full on the day of the claim. For total benefits of more than ¥3 million, the first ¥3 million is paid.

#### **Quick Claims Service**

Pays insurance benefits of up to ¥5 million two business days after the claim

Benefits of less than ¥5 million are paid in full two business days after the claim. For total benefits of more than ¥5 million, the first ¥5 million is paid.

Note: These service options may not be available on some policies.

New individual life insurance sales	4,368,191	3,893,199	3,518,350	3,713,390	3,699,791
Annualized premiums for new policies	_	_	_	_	63,851
Tertiary-sector products	_	_	_	_	16,179
Core profit	10,298	26,754	22,460	22,821	24,333
Solvency margin ratio (%)	1,905.9	1,493.5	1,354.2	1,453.3	1,317.1
Number of employees	5,655	5,721	5,569	5,538	5,528

Notes: 1. Insurance in force above is the total of individual life insurance in force, individual annuities in force and group life insurance in force. Individual annuities in force is the sum of annuity assets at the time annuity payments commence and policy reserves after annuity payments commence.

2. Group annuities in force equals the amount of policy reserves.

#### Review of Operations in Fiscal 2004

In fiscal 2004, the life insurance industry showed some signs of recovery, helped by higher sales of tertiary-sector products and variable individual annuities, but the industry's total insurance in force continued to decline. Despite this environment, Sony Life posted a 6% increase year on year in the total for individual life insurance and individual annuities in force, ending the fiscal year at ¥27,823.4 billion and continuing the steady growth that Sony Life has posted since its inception. Likewise, the total number of individual life insurance policies and individual annuity policies in force climbed 9% year on year, to 3,559,581 policies. Sony Life's lapse rate remained low, improving 1.10 percentage points during the year, to 6.32%. Sony Life believes that these favorable results underscored customers' appreciation of Sony Life's unique needs-based sales approach by Lifeplanners and Partners, as well as an increasing focus in companywide training on the importance of after-sales follow-up.

The amount of new policies remained largely unchanged compared with the previous year, but Sony Life posted a steady increase in the number of new policies. Our analysis suggests that these results reflect strong customer interest in medical protection products. In keeping with its desire to ensure economic security and protection, however, Sony Life will continue to concentrate on death protection products, which are core to its life insurance offerings.

<sup>3.</sup> New insurance sales is the total of new policies for individual life insurance, individual annuities and group life insurance. New insurance sales for individual annuities equals the amount of annuity assets at the time annuity payments commence.

#### Financial Stability

#### Sony Life maintained a high solvency margin ratio of 1,317.1%.

Solvency margin indicates a company's "ability to pay." Life insurance companies accumulate policy reserve against the future payment of insurance claims so they can respond sufficiently to ordinarily anticipated events. But unforeseen events sometimes occur as a result of changes in the environment, such as a major earthquake or a cataclysmic fall in the stock market. The solvency margin ratio is one administrative control indicator used to determine if an insurer has the ability to pay claims in response to such unpredictable events. As of March 31, 2005, Sony Life maintained an extremely high solvency margin ratio of 1,317.1%.

#### Sony Life has obtained high ratings from various rating agencies, including an A+ rating from Standard & Poor's.

Sony Life has obtained high ratings from several rating agencies for its insurance and finance capability and insurance claims payment capabilities, as outlined below.

			(Rating request: As of June 2005)
A.M. Best Company, Inc.	Insurance company rating	<b>A</b> +	(Superior)
Rating and Investment Information, Inc.	Rating for insurance claim payment capabilities	AA	(Insurance claim payment capabilities extremely high, with outstanding elements)
Japan Credit Rating Agency, Ltd.	Rating for insurance claim payment capabilities	AA	(High probability for execution of obligations)
Standard & Poor's	Rating based on insurance and finance capability	<b>A</b> +	(Strong)

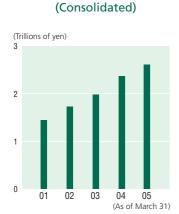

Note: The above ratings were assigned at Sony Life's request. They are not evaluations of insurance companies overall, nor are they a guarantee of claim payments in the future. These ratings are based on rating agencies' opinions given the numbers and information available at a specific point in time, and may be changed in the future. Please refer to the respective web site of each agency for more details.

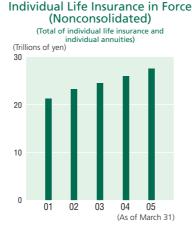

#### Sony Life has no non-performing assets.

Because Sony Life does not engage in commercial lending, its loan balance is derived solely from policy loans, which are limited to the value of recoverable surrender cash. For this reason, the company has no risk-monitored loans (loans for which repayment circumstances are not ordinary). All figures listed as "Loans by Borrower Category under the Financial Reconstruction Law" are classified as normal loans.

#### ■ Major Performance Indicators

**Total Assets** 

#### Sony Assurance Inc.

Sony Assurance operates on the business model of a "direct insurance" provider," communicating with customers directly over the telephone or via the Internet. Through such direct communication, Sony Assurance provides rational and quality insurance services.

Sony Assurance entered the non-life insurance market in autumn 1999 with the business model of a "direct insurance provider." Centering on two flagship products—automobile insurance and medical and cancer insurance—Sony Assurance contacts customers directly over the telephone or via the Internet.

One advantage of being a direct insurance provider is the ability to communicate directly with customers. These one-to-one relationships provide a clear understanding of customers' opinions and needs, which Sony Assurance can reflect in its product and service offerings. Sony Assurance enhances the quality of its products and offers finely tuned services based on this input. Another major advantage is that Sony Assurance can provide products and services with inexpensive premiums because its operations are highly concentrated. By capitalizing on the merits of the direct business model, Sony Assurance has recorded a steady expansion in its business from the time of its establishment.

Sony Assurance operates under the slogan, "Feel the difference—a difference that will change insurance." Sony Assurance sees continuous creativity in various business domains as a permanent challenge, and seeks to provide customers with valuable products that are distinctive—offering a difference that could only come from Sony Assurance.

#### History

• 1998 June	Sony Insurance Planning Co., Ltd. established
• 1999 September	Licensed by the Financial Reconstruction Commission to conduct non-life insurance business
	Corporate name changed to Sony Assurance Inc.
	Began writing automobile insurance policies via the Internet
October	Began writing automobile insurance policies over the telephone
• 2000 January	Led the industry by providing settlement and contact operations on weekends and holidays
June	Led the industry by offering automobile insurance quotations via i-mode*-equipped mobile phones
July	Began offering Oritemo coverage clause for automobile insurance
December	Led the industry in introducing model of car as a risk-segmented category for automobile insurance
• 2001 April	Claims Service Center established
• 2002 June	Began offering medical and cancer insurance
	Sapporo Customer Center opened
• 2003 June	Capital expanded to ¥40.0 billion (common stock of ¥20.0 billion plus capital surplus of ¥20.0 billion)
October	Launched Mobile Gateway web site for policyholders with mobile phones
• 2004 April	Sony Corporation established Sony Financial Holdings Inc., and Sony Assurance became a 100% subsidiary of Sony Financial Holdings
July	Opened Sony Assurance Community Site
November	Introduced Kurikoshi discount on automobile insurance

<sup>\*</sup> i-mode is a registered trademark of NTT DoCoMo, Inc.

#### ■ Providing a Valuable "Difference" to Customers

Sony Assurance values customer input very highly. Sony Assurance aims to facilitate better direct communication with customers so it can reflect their express needs through valuable offerings with "the Sony Assurance difference."

#### Sony Assurance **Community Site**

This site shares Sony Assurance's solutions, customer experiences and customer comments in a question-and-answer format.

#### Web Site for Mobile **Phone Access**

Sony Assurance provides the Mobile Gateway web site, which is accessible via mobile phone, making it easier for customers to contact Sony Assurance whenever they need to, and to locate relevant information conveniently if an unforeseen incident occurs.

#### **Customer Centers**

Designed to facilitate smooth communication, this center is staffed by people who provide quick and easy-to-understand answers to customers' questions, ensuring that Sony Assurance provides optimal customer solutions.

#### **Service Centers**

Sony Assurance's service center staff communicate directly with customers, providing empathetic support and helping to resolve problems in the event of an untoward situation.

#### Continued High Regard for Sony Assurance Automobile Insurance

To more closely tailor its automobile insurance to individual customers, Sony Assurance takes into account each customer's driving characteristics, with risk-segmented categories such as the distance driven each year, driving purpose, model of car, number of years since first registering car ownership, driver's age and type of driver's license. Because of Sony Assurance's direct sales approach, which results in cost reductions through operational concentration and efficiency, Sony Assurance can pass savings on to its customers in the form of reasonable premiums.

Sony Assurance has designed an original add-on contract called the Oritemo coverage clause, which indemnifies people who are out with their insured cars against such things as personal injury or damage to personal belongings—even if they are not physically inside the vehicle at the time the problem occurs. Also, as distance driven each year is one risk-segmented category, Sony Assurance offers a unique system of providing refunds for drivers whose distance driven in a year falls below the distance stipulated in their insurance policies. This Kurikoshi discount, which is applied to the next year's insurance premium, has proven popular with customers.

#### ■ Popular Half-Price Clauses for Medical and Cancer Insurance Policyholders from Age 60

Sony Assurance's medical and cancer insurance provides sufficient protection against cancer, which is often associated with high medical care costs and extensive treatment periods. To provide such insurance with low premiums, such features as death protection or premium returns upon policy cancellation are limited. Sony Assurance's medical and cancer insurance has two types of protection period. Premiums on whole-life "SURE" policies remain fixed for life even as a policyholder ages, whereas the 10-year renewable version has low initial premiums that rise at the time of renewal. Whole-life SURE policies also come in two types—SURE Basic, which features inexpensive premiums and limited coverage, and SURE Wide, which provides much more extensive protection. Also, Sony Assurance led the industry in introducing half-price clauses for policyholders who have reached their 60th birthday. For a slight increase in monthly premiums, this clause halves policy premiums once a policyholder reaches 60 years of age. This option is widely popular with Sony Assurance's policyholders, approximately 70%\* of whom have opted for this additional coverage.

<sup>\*</sup> This ratio is among policyholders under the age of 57, which is the maximum age at which the clause can be added. Participation rates are based on data as of March 31, 2005.

#### Review of Operations in Fiscal 2004

In fiscal 2004, Sony Assurance adopted "Feel the difference—a difference that will change insurance" as its new corporate slogan. Under this slogan, Sony Assurance launched a host of initiatives with the goal of providing customers with a level of service that clearly distinguishes it from other companies. For example, in November 2004 Sony Assurance led the industry by introducing a Kurikoshi discount on its automobile insurance. If annual driving distance—one risk-segmented category—falls below the distance assumed when the policy is first written, policyholders are offered a discount on their policy premiums the following year. Simultaneously, Sony Assurance instituted the Koetemo Anshin Service, which eliminates the need for policyholders to pay additional premiums or contact the insurer if they happen to exceed their originally assumed annual driving distance.

During the year, Sony Assurance saw a steady increase in the number of policyholders for both of its mainstay products—automobile and medical and cancer insurance—and net premiums written increased 23%, to ¥37,849 million. The number of policies in force—the sum of automobile insurance and medical and cancer insurance policies—exceeded 650,000 as of March 31, 2005. Owing to such factors as the frequent occurrence of natural disasters during the period, however, claims paid increased, resulting in an ordinary loss of ¥2,806 million. The combined ratio for the year improved 3.0 percentage points, to 86.5%, comprising a net expense ratio of 34.6% and a net loss ratio of 51.9%. As of March 31, 2005, Sony Assurance's solvency margin ratio was 1,095.2%. As 200% is the general standard, Sony Assurance's high solvency margin ratio indicates an abundant ability to pay claims.

#### ## Financial Stability

#### Sony Assurance maintained a solvency margin ratio of 1,095.2%, indicating a substantial ability to pay claims.

Non-life insurers set aside reserves to pay claims as a matter of course. It is essential for insurers to make doubly certain that their reserves are adequate to pay claims even when unforeseen events, such as a major disaster or substantial decline in asset values, occur. The solvency margin ratio indicates an insurer's ability to pay if faced with such unpredictable risks. An insurer is generally assumed to have adequate ability to respond to such conditions if the solvency margin ratio exceeds 200%. As of March 31, 2005, Sony Assurance had a solvency margin ratio of 1,095.2%, significantly exceeding the standard 200% and indicating a superior ability to pay claims.

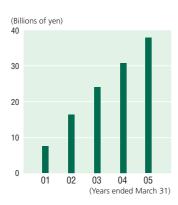

#### Sony Assurance has no non-performing assets.

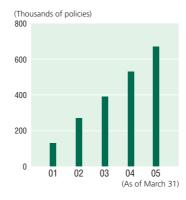

Sony Assurance has no risk-monitored loans (loans for which repayment circumstances are not ordinary). Furthermore, no loans are listed in the "Loans by Borrower Category under the Financial Reconstruction Law."

#### Sony Bank Inc.

#### By capitalizing on its strength as an Internet bank that targets individual customers, Sony Bank offers highly convenient financial products and services.

In June 2001, Sony Bank commenced operations as an Internet bank for individuals. Sony Bank was established in the belief that Japan's financial institutions may have offered too few financial service alternatives for individuals and that the Internet could be used as a tool to provide highly convenient financial services.

In the ensuing four years, Sony Bank has developed new products and services in a proactive, yet flexible manner based on its consistent policy of providing financial services primarily for asset management—to independent individuals. Sony Bank's product and service lineups have expanded gradually, now including yen deposits, foreign currency deposits, investment trusts, personal loans extended through ATM cards, housing loans and special-purpose loans, as well as MONEYKit GLOBAL (cash card service settled in U.S. dollars) and annuities and insurance products. By taking advantage of the special characteristics of the Internet, Sony Bank offers unique services, such as the three interfaces provided to match the individual investment needs of each customer.

Customers have supported these initiatives, and the number of accounts at Sony Bank and balance on deposits have steadily increased each year. By continuously maximizing its use of information technology, Sony Bank aims to keep providing diverse high-end financial services and products that meet the needs of an expanding customer base.

#### History

 2001 April Sony Bank Inc. established and registered

Obtained banking business operating license from the Prime Minister of Japan

June Commenced operations and opened the MONEYKit service site

Products comprised ordinary yen deposits, yen time deposits, investment trusts and personal

loans extended through ATM cards

September Began handling foreign currency deposits December Launched MONEYKit-PostPet service • 2002 March Began offering housing loans June

Began offering special-purpose loans • 2003 July Launched MONEYKit GLOBAL service December Launched MONEYKit-ACTIVE service

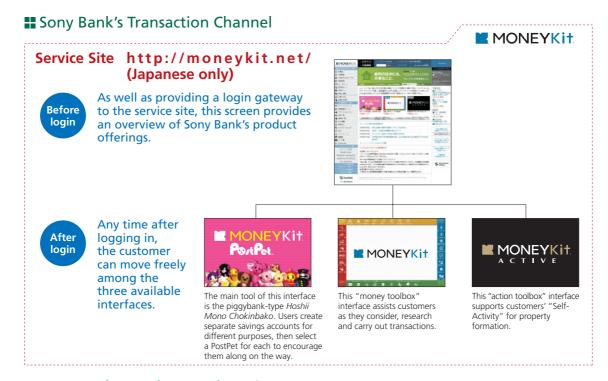

• 2004 April Sony Corporation established Sony Financial Holdings Inc., and Sony Bank became a

subsidiary of Sony Financial Holdings

Commenced sales of individual annuities offered by Sony Life Insurance Co., Ltd. June

Increased capital by ¥10.0 billion, raising common stock to ¥23.75 billion

October Commenced sales of fire insurance offered by Sony Assurance Inc.

#### Sony Bank's Products and Services

Sony Bank offers a variety of products and services.

- Yen deposits (ordinary deposits, time deposits)
- Foreign currency deposits (ordinary deposits, time deposits)
- MONEYKit GLOBAL
- Investment trusts

- Personal loans extended through ATM cards
- Special-purpose loans
- Housing loans
- Annuities and insurance

Sony Bank's foreign currency deposits, which allow transactions essentially 24 hours a day, 365 days a year, use interest and exchange rates that are closely linked with markets. Sony Bank offers these deposits in eight currencies—U.S. dollar, euro, sterling pound, Australian dollar, New Zealand dollar, Canadian dollar, Swiss franc and Hong Kong dollar. Account holders can trade funds using U.S. dollars instead of yen to trade directly into other currencies, enter into foreign exchange contracts on their foreign currency time deposits, place limit orders on foreign currency deposit transactions, create foreign currency time deposits with special agreements and perform various other transactions.

Sony Bank's housing loans allow customers to go through the entire process from application through to contract without ever setting foot in a bank branch. Using the Internet, customers can easily change the type of interest and make early payments. Sony Bank offers floating interest rates, as well as fixed interest rates on specific periods of two, three, five, seven, 10, 15, 20 or more than 20 years.

#### Affiliated ATMs (As of July 2005)

Customers can withdraw and deposit cash or transfer funds through automated teller machines (ATMs) operated by organizations affiliated with Sony Bank.

- All ATMs operated by Sumitomo Mitsui Banking Corporation
- "@B\NK" ATMs at the am/pm convenience store chain (except those in Kyushu)
- ATMs operated by the Bank of Tokyo-Mitsubishi, Ltd. (except some ATMs located in hospitals and schools)
- Nationwide ATMs operated by Japan Post

#### Review of Operations in Fiscal 2004

Sony Bank continued to expand its product and service offerings in fiscal 2004. In June 2004, Sony Bank added the New Zealand dollar to its list of available currencies for foreign currency deposits, and in December 2004 it began offering limit orders on foreign currency deposit transactions as well as foreign currency time deposits with special agreements. Sony Bank also added 17 new funds to its investment trust offerings, bringing the total to 40. In November 2004, Sony Bank launched a new service for housing loans, involving special agreements with partially fixed interest rates. This service allows borrowers to partially set various fixed rates from time to time on their floating-rate loans. Sony Bank also added a function that enables customers to switch to floating interest rates or to other fixed rates of interest even during the period to which the initially fixed interest rate applies. This wealth of options has greatly enhanced the appeal of Sony Bank's housing loans.

As of March 31, 2005, deposited assets, the total of deposits and investment trusts, were ¥576.3 billion, up ¥181.0 billion compared with the previous year. Of this amount, yen deposits totaled ¥387.6 billion, an increase of ¥115.9 billion, and foreign currency deposits were ¥159.1 billion, growing ¥51.8 billion. Investment trusts amounted to ¥29.6 billion, ¥13.2 billion higher than a year earlier. Surging 50% during the year, foreign currency deposits accounted for 28% of total deposited assets. Sony Bank's number of accounts grew by 98 thousand during the year, to 367 thousand accounts, with average deposited assets per account of ¥1.56 million. Sony Bank's loan balance doubled, to ¥126.3 billion at fiscal year end, buoyed by a ¥62.3 billion increase in housing loans.

Also, in June 2004, Sony Bank strengthened its financial base through a capital infusion of ¥10.0 billion. During the fiscal year ended March 31, 2005, total income was 1.5 times the previous year's level, at ¥11.3 billion, and gross operating profit was 1.4 times the level of the previous year, at ¥5.3 billion. General and administrative expenses increased 19%, to ¥6.9 billion. As a result, loss before income taxes improved ¥0.5 billion from the previous year, to ¥1.6 billion. Notably, in the fourth quarter of fiscal 2004, Sony Bank turned positive net income on a quarterly basis for the first time.

#### **##** Financial Stability

#### Sony Bank had a capital adequacy ratio of 11.97% (domestic criteria).

The capital adequacy ratio is used to indicate a bank's financial stability. For banks that operate only in Japan, a 4% capital adequacy ratio is used as a minimum standard. Based on domestic criteria, Sony Bank's nonconsolidated capital adequacy ratio at March 31, 2005, stood at 11.97%, up 1.68 percentage points from a year earlier.

#### Sony Bank obtained an A-long-term credit rating from Standard & Poor's.

As of July 1, 2005, Sony Bank has received an "A-" long-term credit rating and a short-term credit rating of "A-2" from Standard & Poor's.

#### **Corporate Governance**

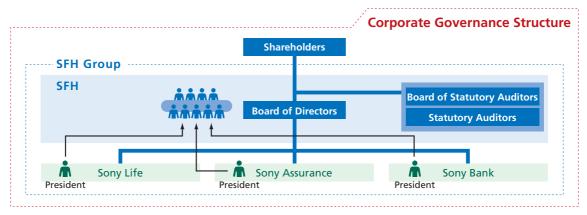

The SFH Group positions its corporate vision and philosophy, mentioned in the preceding pages, as the basic policy for setting management strategy and expediting management decision-making initiatives. One facet of our corporate vision is our goal to "become one of the most trusted financial services groups." Although subsidiaries in the SFH Group each have different histories, scales of operations and business characteristics. SFH works to achieve this goal by making the most effective use of the operating characteristics and information available within the SFH Group, to the fullest extent permissible under the law. In taking this approach, we place utmost importance on the soundness and accuracy of our operations. To this end, we have designed a management structure to ensure groupwide compliance and risk management.

SFH's Board of Directors\* comprises eight directors who are also directors of subsidiaries within the SFH Group, plus one outside director. This structure is designed to ensure and expand the trustworthiness of the SFH Group.

The Board of Statutory Auditors\* comprises four statutory auditors. Based on the audit policy and plans stipulated by the Board of Statutory Auditors, statutory auditors are responsible for attending important meetings, including Board of Directors meetings, and for examining operating and financial conditions and auditing the duties executed by directors.

We carefully monitor each subsidiary's management in a respectful manner and promote management control activities by adding new group management control functions and encouraging creativity.

\* As of July 1, 2005

#### Compliance

Compliance is an essential part of ensuring that a company fulfills its responsibilities to society. Given the characteristics of financial services, to which maintaining trust-based relationships with customers is integral, the SFH Group is further enhancing its compliance structure.

At SFH, the Board of Directors is assigned the duty of establishing our compliance program, creating a compliance manual and confirming the progress of such programs. As a result, the Board monitors and seeks to strengthen the Group's compliance activities. The Corporate Control Department of SFH has overall control

of compliance activities, including checking the compliance of each division, conducting training, operating our internal hotline systems and ensuring adherence to relevant laws and statutes.

In addition, in its role as a financial holding company SFH provides subsidiaries with a variety of compliance-related information, ensures the operation of groupwide internal hotline systems and holds group compliance liaison conferences. We support subsidiaries in verifying and enhancing the compliance situation and raise groupwide compliance levels.

#### **Risk Management**

One of SFH's roles as a financial holding company is to concentrate management resources and strengthen groupwide risk management in an integrated manner. The SFH Group's policy on risk management is described below.

#### SFH's Policy on Group Risk Management

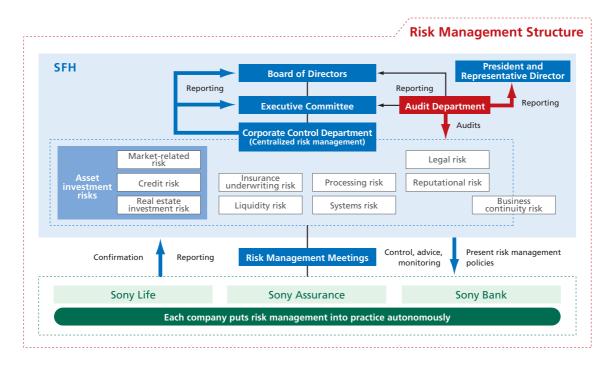

- 1 As a financial holding company, we enhance the corporate value of the SFH Group by basing our risk management structure on the SFH Group's management policy and strategic objectives as well as by performing risk management that responds to the various characteristics of each business and each risk category.
- 2 SFH confirms that the SFH Group's subsidiaries, as independent entities, are individually responsible for establishing risk management structures to achieve their own management targets and institutes any necessary countermeasures.
- 3 As a financial holding company, SFH eliminates any excessive concentration of risk in any specific area, provides appropriate control of intra-group transactions and manages risk propagation inside the SFH Group.

SFH's Board of Directors formulates the fundamental principles for risk management activities and transmits these requirements to directors and employees throughout SFH and its subsidiaries. The Board then recognizes the presence or types of risks that differ according to each subsidiary's scale, business and characteristics, and establishes structures to appropriately manage the various risks. SFH's Executive Committee, delegated by the Board of Directors, executes daily activities pertaining to group risk management. Specifically, while each subsidiary evaluates, monitors and manages each risk, the Corporate Control Department—which has overall control of SFH's risk management coordinates with the risk management

departments of those subsidiaries. The department also submits periodic reports to SFH's Board of Directors and Executive Committee on the risk management conditions recognized through monitoring or holding Risk Management Meetings. The Audit Department, on the other hand, conducts internal audits to verify the appropriateness and effectiveness of the overall risk management structure.

The types of risk that SFH and its subsidiaries manage are indicated as below.

- Market-related risk
- Credit risk
- Real estate investment risk
- Liquidity risk
- Insurance underwriting risk
- Processing risk
- Systems risk
- Legal risk
- Reputational risk
- Business continuity risk

#### **Privacy Policy**

In the course of providing products and services, SFH's subsidiaries handle personal and private information about their customers. SFH exercises the utmost caution to ensure that this information is managed appropriately and only for the express purpose for which the customers have entrusted it to us. For its basic policy on

the handling of personal information, SFH adheres to the privacy policy established by Sony Corporation.

Note: In the SFH Group, subsidiaries handle personal and private information on their customers. SFH itself does not gather information from customers for the purpose of conducting business and is not a "business entity that handles personal information," as defined in Article 2.3 of the Personal Information Protection Act

#### Excerpt from Sony Group Privacy Policy\*

The primary objective of each Sony Group company (hereafter "Sony") is to provide great products and services focusing on customers' needs, through innovative ideas as well as sound business practices. Sony is committed to meeting the high expectations of its customers and to being the "most trustworthy partner for customers" in the broadband era of the 21st century.

Sony understands that customers entrust Sony with their Personal Information with the expectation that it will be used only for specific purposes. Sony respects the customers' expectations and places a high priority on properly protecting such Personal Information and limiting its use to such purposes.

We hereby declare that we do our best to protect Personal Information of our customers, keeping the following policies always in mind.

\* This Privacy Policy is for Sony Corporation and its subsidiaries in Japan and Sony Ericsson Mobile Communications Japan, Inc.

#### Policies regarding Handling of Personal Information

#### (Compliance)

1. Sony will comply with the applicable laws, regulations, ministerial guidelines and this Privacy Policy in handling Personal Information (information which can identify a specific individual).

#### (Use within Specific Purpose(s))

2. Sony will specify the purpose(s) of use as much as possible and use Personal Information only within the scope Sony has notified or made public, except for cases in which Sony has obtained in advance consent from the individual who provides his/her Personal Information (hereafter the individual") and for cases permitted under the related laws or regulations.

#### (Notification/Publication of Purpose(s) of

3. Sony will endeavor to clearly notify necessary information such as purpose(s) of use, names of user(s) as well as contact details and to obtain consent when asking for Personal Information. Sony may record in writing or in voice the contents of transactions and inquiries. Such information will be used only for purposes of responding adequately and swiftly to the requests from the individual.

#### (Personal Information of Minors)

4. Sony will make special consideration for the handling of minors' Personal Information, e.g. to notify clearly in advance to ask a child under fifteen (15) years old to provide Personal Information only upon guardian's consent.

#### (Security Control Measures)

5. Sony will endeavor to maintain entrusted Personal Information to be accurate and updated to the extent necessary for the purpose(s) of its use. Sony will take necessary and appropriate security control measures in line with existing technical standards to protect entrusted Personal Information from unauthorized access, modification, and leakage, etc.

#### (Supervision of Subcontractor(s))

**6.** Sony may subcontract the processing of entrusted Personal Information to a third party to the extent necessary to fulfill the purpose(s) of its use. Such third party will be selected after confirming sufficient level of information security, and Sony will exercise necessary and adequate supervision to the party by such means as making contracts.

#### (Providing to Third Parties)

7. Without the consent of the individual, Sony will not provide Personal Information to any third party other than joint-users clearly notified at the time of collection, except for cases permitted under the related laws or regulations. Sony will not provide Personal Information to any third party, based on the "Opt-Out System" (Article 23.2 of the Personal Information Protection Act), without acknowledgment by the individual.

#### (Request(s) for Review etc.)

Sony will, based on the provisions of the related laws or regulations, swiftly respond to request(s) from the individual such as to review, correct, stop receiving further product or service information from Sony, or to delete Personal Information of their own after confirming their identity. Please contact the appropriate customer center to which you have provided your Personal Information.

#### (Response to Complaint(s))

**9.** Sony will set up necessary internal organizations to address adequately and swiftly complaint(s) from individuals about its handling of Personal Information.

#### (Continuous Improvement of Internal System)

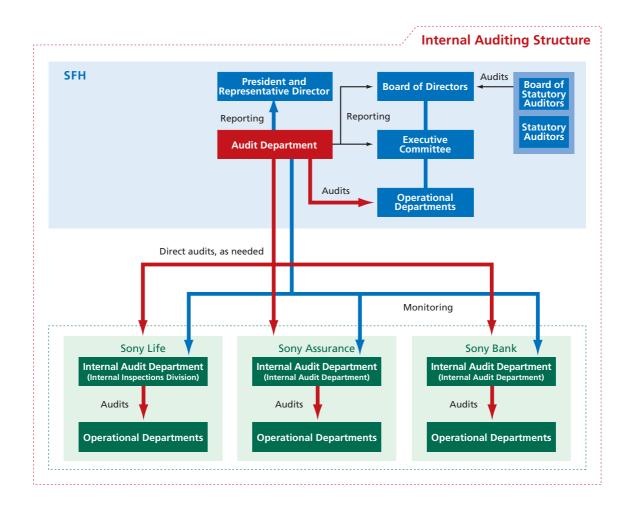

**10.** Sony will continuously endeavor to improve internal compliance systems including updating this Privacy Policy through establishment of internal rules, education to employees and appropriate internal audit to handle entrusted Personal Information properly.

#### **Internal Auditing**

SFH performs internal audits through its Audit Department. Reporting directly to the president and representative director, this department operates outside the other lines of operational reporting and, from an independent and objective position, verifies the appropriateness and effectiveness of SFH's internal controls, including governance processes, compliance and risk management. As its suggestions for improving management contribute to the sound and appropriate operations of SFH and its subsidiaries, this department endeavors to perform highly effective internal audit activities.

While subsidiaries also perform internal audit activities that are designed to match their specific industry, scale of business and the types of risk they entail, SFH's Audit Department conducts monitoring based on the results of audit reports provided by subsidiaries and, if necessary, may conduct audit activities of subsidiaries directly.

Statutory auditors, on the other hand, audit the execution of duties by directors by attending important meetings, including Board of Directors meetings, and evaluating business and financial conditions.

W 32,932 million

W (30,874) million

W 2253,969 million

2. Cash flows from investing activities include cash flows from lending operations of the insurance business.

#### **Notes to the Consolidated Financial Statements**

For the year ended March 31, 2005

#### 1. Basis of Presenting Consolidated Financial Statements

Sony Financial Holdings Inc. (the "Company") and its domestic subsidiaries maintain their accounting records and prepare their financial statements in Japanese yen in accordance with the provisions set forth in the Commercial Code of Japan, the Insurance Business Law of Japan and the Banking Law of Japan and in conformity with generally accepted accounting principles and practices in Japan, which are different in certain respects as compared to the application and disclosure requirements of generally accepted accounting principles and practices in the United States of America. The Company's overseas subsidiary maintains its accounting records and prepares its financial statements in conformity with generally accepted accounting principles and practices prevailing in its country of domicile.

The accompanying consolidated financial statements are prepared based on the consolidated financial statements of the Company and its subsidiaries (the "Companies") which were filed with the Financial Services Agency as required by the Insurance Business Law and the Banking Law. For the convenience of readers, the preparation is modified in certain respects from the original Japanese disclosed financial information.

#### 2. Principles of Consolidation

(1) Scope of consolidation

The number of consolidated subsidiaries: 4

Consolidated subsidiaries:

Sony Life Insurance Co., Ltd.

Sony Life Insurance (Philippines) Corporation

Sony Assurance Inc. Sony Bank Inc.

(2) Application of the equity method Not applicable

(3) Fiscal year of consolidated subsidiaries

The financial statements of Sony Life Insurance (Philippines) Corporation are prepared with a fiscal year end of December 31. Appropriate adjustments are made for material transactions between December 31 and March 31, the date of the consolidated financial statements. All the other subsidiaries prepare their respective financial statements with a fiscal year end of March 31, the same as the date of the consolidated financial statements.

(4) Valuation of assets and liabilities of consolidated subsidiaries
A portion of the assets and liabilities of consolidated subsidiaries are computed at fair value as of the respective dates when the subsidiaries were initially consolidated.

(5) Amortization of goodwill

Goodwill is charged to income directly when incurred.

(6) Appropriation of retained earnings

The consolidated statement of surplus is based on the appropriation of retained earnings approved at the shareholders' meeting during the consolidated fiscal year.

#### 3. Summary of Significant Accounting Policies

(1) Securities

Securities (including commercial paper and other debt purchased and monetary trusts) are stated in the following manner: Securities held for trading purposes ("trading securities") are stated at fair value. The cost of securities sold is determined by the moving-average method. Held-to-maturity securities are stated at amortized cost (straight-line method) using the moving-average method. Other securities designated as available-for-sale securities with fair value are stated at fair value at fiscal year end, and its cost of securities sold is determined by the moving-average method. Other securities designated as available-for-sale securities with no available fair value are stated at amortized cost (straight-line method) or at acquisition cost using the moving-average method. Net unrealized gains and losses on other securities above are reported, net of applicable income taxes, as a separate component of stockholders' equity.

(2) Derivative financial instruments

Derivative financial instruments are stated at fair value.

(3) Property and equipment

Primarily, depreciation is computed by the straight-line method for buildings and by the declining-balance method for other property and equipment.

(4) Software for internal use

Capitalized software for internal use is amortized using the straight-line method over its estimated useful life of five years.

(5) Deferred charges

Stock issuance costs are fully charged to income when incurred.

(6) Reserve for possible loan losses

The reserve for possible loan losses is established in accordance with each company's Self-Assessment Guidelines and Write-offs and Reserve Guidelines. With respect to loans to borrowers subject to bankruptcy, court-guided rehabilitation or similar legal or formal proceedings, the Companies provide a specific reserve in the amount of the loan balance less amounts collectable from collateral, guarantees and by other means. For other loans, the Companies provide a general reserve by applying the historical loan loss ratio determined over a certain period. Each loan is subject to asset assessment by the operational departments in accordance with each company's Self-Assessment Guidelines, and the results of the assessment are reviewed by the internal audit departments, which are independent from the operational departments, before the reserve amount is finally determined.

(7) Reserve for employees' bonuses

The reserve for employees' bonuses is provided for the payment of bonuses to employees, in the amount of estimated bonuses, which are attributable to the current fiscal year.

(8) Reserve for employees' retirement benefits

The reserve for employees' retirement benefits is provided for the payment of retirement benefits to employees, in the amount deemed accrued at the fiscal year end, based on the projected retirement benefit obligation at the fiscal year end.

(9) Reserve for directors' retirement benefits

The reserve for directors' and statutory auditors' retirement benefits of the domestic life insurance subsidiary is provided based on its internal regulations and calculated as the amount that would be payable if all eligible directors and statutory auditors were to resign at the fiscal year end.

(10) Reserve for price fluctuations

Pursuant to requirements under the Insurance Business Law, the reserve for price fluctuations is provided for price fluctuations primarily related to stocks, bonds and foreign currency denominated assets which are exposed to losses due to market price fluctuations. This reserve may only be used to reduce deficits arising from price fluctuations on those assets.

(11) Translation of foreign currencies

Assets and liabilities denominated in foreign currencies are translated into Japanese yen at the foreign exchange rates in effect at the fiscal year end.

(12) Lease transactions

Finance leases that have not been deemed to transfer ownership of the leased property to the lessees are accounted for as operating lease transactions.

(13) Hedge accounting

As for the hedge accounting method applied to hedging transactions for interest rate risk generated by financial assets and liabilities, the banking subsidiary applies deferred hedge accounting or fair value hedge accounting. Interest rate swaps are used as hedging instruments to offset fluctuations in interest rates on fixed-rate loans by identifying the hedged items via their grouping according to their maturity, in accordance with the "Treatment for Accounting and Auditing of Application of Accounting Standard for Financial Instruments in the Banking Industry" (Industry Audit Committee of Japanese Institute of Certified Public Accountants No. 24). Interest rate swaps and others are used as hedging instruments to offset fluctuations in the fair value of fixed-rate bonds, which are classified as other securities. Both of the above-mentioned hedging instruments are identified so that their significant terms are nearly identical to those of the hedged items. Accordingly, such hedges are considered as highly effective, resulting in a substitution for evaluating the effectiveness of the hedging transactions.

(14) Accounting for consumption taxes

The consumption taxes received or paid by the Company and its domestic subsidiaries, excluding loss adjustment expenses and operating, general and administrative expenses of the non-life insurance subsidiary, are not included in income and expenses. Under the Consumption Tax Law of Japan, the consumption taxes paid on property and equipment, which is not deductible from the consumption taxes received, are deferred as "other assets" and amortized over a fiveyear period on a straight-line basis, while other non-deductible consumption taxes are charged as expenses in the period in which the consumption taxes are paid.

(15) Policy reserve

Pursuant to Article 116 of the Insurance Business Law, the domestic life insurance subsidiary maintains a policy reserve for the fulfillment of future obligations under life insurance contracts, and the policy reserve is calculated in the following manner.

a. Policies subject to the standard policy reserve apply the method stipulated by the Financial Services Agency (Ministry

of Finance Directive 48, 1996). b. Policies not subject to the standard policy reserve apply the net level premium method.

(16) Application of consolidated tax provision

The consolidated tax provision, under which Sony Corporation is the parent company, is applied to the Company and its domestic subsidiaries wholly owned by Sony Corporation.

4. The balance of loans included the following "Risk-monitored loans" stipulated in the Banking Law.

Bankrupt loans: ¥— million Non-accrual delinquent loans: ¥ 0 million Past due loans (3 months or more): ¥— million ¥— million Restructured loans:

"Non-accrual delinquent loans" are loans on which accrued interest income is not recognized, excluding "Bankrupt loans" and loans on which interest payments are deferred in order to support the borrowers' recovery from financial difficulties.

- 5. The domestic life insurance subsidiary revalued its land for operating purposes, as permitted by the Land Revaluation Law (Law No.34, promulgated on March 31, 1998—the "Law"). The net revaluation losses are reported as "land revaluation" in stockholders' equity and the tax effect of this revaluation of land is accounted for in full in valuation reserve. The date of the revaluation was March 31, 2002, and the revaluation method stipulated by Article 3-3 of the Law was based on the land appraisal in conformity with Article 2-5 of the Law Enforcement Order related to the Law (Government Ordinance No. 119, effective from March 31, 1998). The difference between the fair value and the book value of land for operating purposes at the fiscal year end was ¥334 million.
- 6. Accumulated depreciation of property and equipment: ¥5,012 million.
- The balance sheet included ¥200,996 million of assets and liabilities in equal amounts related to separate accounts, as stipulated in Article 118 of the Insurance Business Law.
- **8.** Net assets per share: ¥87.056.14

The basis for this calculation is net assets of ¥182,817 million, of which the entire portion is applicable to common shares. The number of shares outstanding at fiscal year end was 2,100 thousand.

9. Net income per share: ¥3,069.93
The basis for this calculation is net income of ¥6,375 million, of which the entire portion is applicable to common shares. The weighted-average number of shares outstanding was 2,076 thousand.

- 10. The Company and its subsidiaries have office and computer equipment taken on lease contracts that are not included in property and equipment stated in the consolidated balance sheet.
- 11. The movement of the reserve for policyholders' dividends at the domestic life insurance subsidiary for the fiscal year is as follows:

Balance at beginning of year: ¥783 million Policyholders' dividends during the year: ¥568 million Increase in interest: 0 million Provision for reserve for policyholders' dividends: ¥519 million Balance at end of year: ¥735 million

12. The assets pledged as collateral consisted of the following.

Assets pledged as collateral:

Securities: ¥39,417 million

Liabilities corresponding to the assets above:

¥24,600 million

Call money and bills sold: In addition to the assets presented above, the banking subsidiary pledged securities of ¥15,955 million as collateral for domestic exchange settlements and derivative transactions, initial margins for futures markets.

**13.** The fair value information on securities as of March 31, 2005, is as follows. In addition to "Securities" in the consolidated balance sheet, commercial paper and other debt purchased in "Commercial paper and other debt purchased" are included in the amounts of the following table.

Note: Jointly invested monetary trusts of ¥50 million are included in the above table.

**15.** All figures in the consolidated financial statements and notes are stated in millions of yen by discarding fractional amounts of less than ¥1 million.

## Consolidated Capital Adequacy Ratio (domestic criteria)

The consolidated capital adequacy ratio is subject to the capital adequacy guidelines issued by the Financial Services Agency in Japan which closely follow the risk-adjusted approach proposed by the Bank for International Settlements (BIS).

The following table presents the consolidated capital adequacy ratio of Sony Financial Holdings Inc. under the guidelines.

As of March 31			(Millions of yen)
			2005
Tier I capital	[A]		181,326
(Core capital)		Common stock	5,500
		Capital surplus	180,877
		Retained earnings	(10,462)
		Minority interests	5,576
		Unrealized losses on other securities	164
Tier II capital	[B]		44
(Supplementary capital)		General reserve for possible loan losses	44
Deductions	[C]		145,881
Total capital	[A+B-C] [D]		35,489
Risk-adjusted assets	[E]		291,684
		On-balance item	291,194
		Off-balance item	490
Consolidated capital adequacy ratio	[D/E]		12.17%

Note: Pursuant to "Defining the Standards on the Consolidated Capital Adequacy Ratio under the Provision of Article 52-25 of the Banking Law (Ministry of Finance Directive 62, 1998)", insurance subsidiaries are excluded from calculation of the consolidated capital adequacy ratio.

## **Solvency Margin Ratio**

The domestic insurance subsidiaries of Sony Financial Holdings Inc. are required to maintain an adequate solvency margin ratio by the Japanese regulatory authorities.

The following tables present the solvency margin ratio of Sony Life Insurance Co., Ltd. and Sony Assurance Inc.

#### Sony Life Insurance Co., Ltd.

As of March 31			(Millions of yen)
		2004	2005
